In this issue:

Super Science Seminars

2005 will mark the second Super Science Seminar as part of the INEEL Scholastic Tournament State Championships. Several INEEL scientists and engineers have expressed an interest in participating, and Scholastic Tournament staff will be mak-

ing arrangements for the 28 teams that advance to the state championships.

Last year, students were able to learn about DNA sampling from Debbie Newby, and Miles

as well as throughout the world. Newby, a microbiologist at the INEEL, was a presenter at the 2004 National Science Bowl.

New Coaches & Schools

New coaches and/or schools for 2005 include:

New school and coach:
Moscow — Carolyn Tragesser

New coaches:
